

## New Features inside Ginger ....> Click on the Setting Bars ( Top Left Hand Corner)

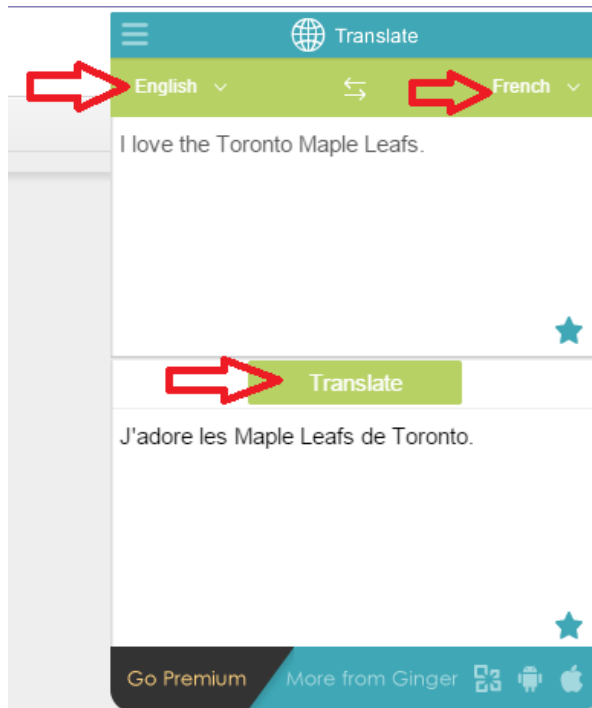

When you log into the new Ginger extension you get a whole new set of features that are quite nice and very easy to use..... So click on the 3 bars in the top left.

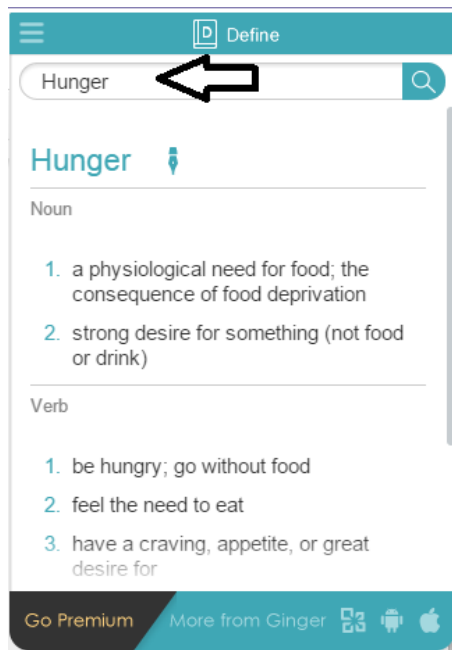

You get this mini menu.

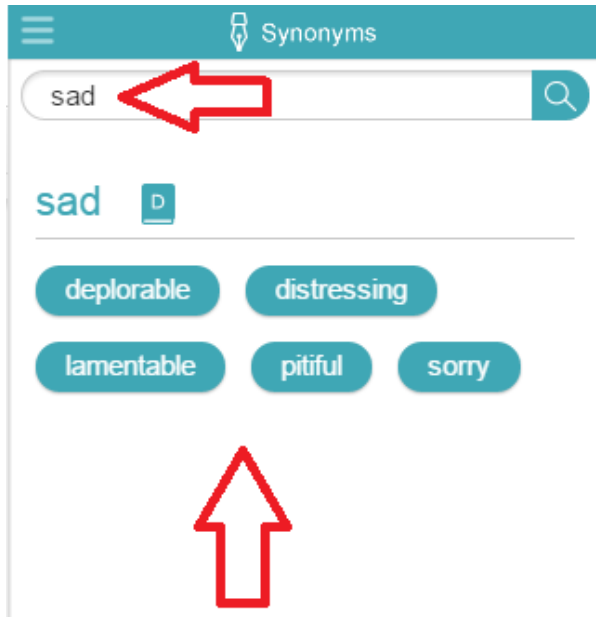

To **Translate** Click Translate...Select English to French and then click Translate ( Great for ESL students also)

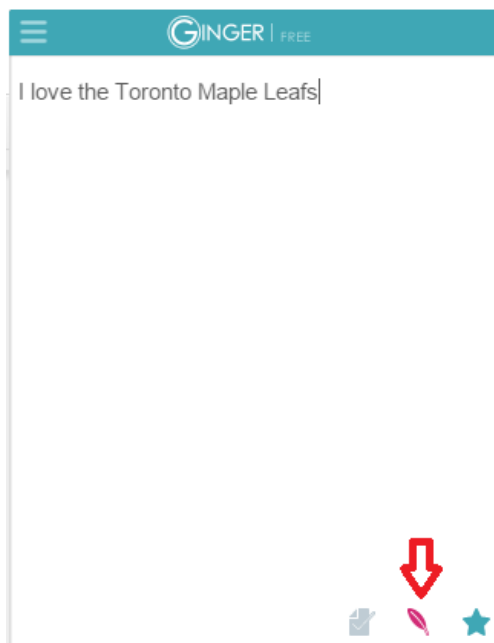

To get a **definition** click define and type in the word in the define text box Ex Hunger

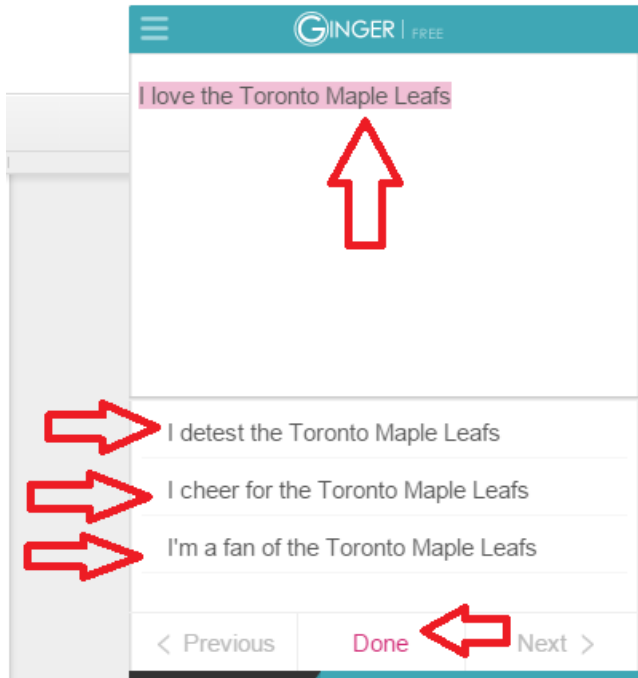

**Synonyms** Click on Synonyms link ...type the word in the text box ...>Example sad and click the search magnifying glass to the right...>and you will get several examples below

The **Rephrase tool** works most of the time. Type a sentence, then correct it with Ginger, then click the red feather below at the bottom.....>that will give you a list of suggested new phrases.

All the best Bill
